

## *What Moms are saying...*

### Testimonials

"Kidslink allows me to stay connected with close family and friends and share updates that I would normally not feel safe posting."

*-Katy B., Mom of 3, Inman Park*

"It's like group texting only it creates a scrapbook for each of my kids...without trying."

*-Monica B., Mom of 2, Buckhead*

"This isn't acquaintancebook... I don't feel exposed... It's just my closest girlfriends with kids."

*-Erica S., Mom of 1, Sandy Springs*

"It's 30 seconds of girls night out while I wait in the carpool line."

*-Katy B., Mom of 3, Inman Park*

### iTunes App Reviews

**It's about time!** *Lexi112—Jul 26, 2014*

"I love this app, I can't believe there's nothing else out there like this! I stored all of my medical information, auto insurance and all of my gift cards in case I lose them!

The real reason this is a lifesaver is because it lets me connect to my nephew and niece. My brother doesn't love sharing all of life on Facebook, but loves being able to share it with our close friends and family! We get to see pictures of them and what's new in their life.

During my last visit home I took the kids for a few days. One of them got sick and had to take them to the doctor...always fun, right? JJ Instead of trying to figure out their insurance info I just looked in KidsLink and there it was! My brother made me a guardian so I could see all their personal information. It was so nice to not have that added stress."

**So helpful!** *Tigscloset—Jul 26, 2014*

“The ability to easily chronicle my son’s life absolves my never-ending mom guilt for not keeping up with his baby book. Love the safety/privacy, and the document vault is a lifesaver.”

**An amazing app for the modern family** *Starn107—Jul 26, 2014*

“From the ability to centralize documents to the capturing of moments, KidsLink makes being a modern family easier. They have made obsolete the traditional baby book, the safe deposit box of documents, and that folder stuffed full of papers that Mom had but Dad could never find anything in on the first day of school. I cant wait to see what they come up with next.”

**Absolutely addictive** *Dionigia—June 15, 2014*

“Love saving and sharing memories of my kids with this app!”
